Established: 1997

Draglam Waste and Recycling is a Canadian, privately owned company established in 1997 to fill a need for responsible waste management and recycling services to a rapidly growing construction industry in the Greater Toronto Area. Today, with a Head Office in Concord and 2 conveniently located transfer stations, the company provides comprehensive waste diversion services to over 300 businesses, construction sites, homes, schools, apartments and more.

Committed to operational excellence, innovation and environmental integrity, the Team at Draglam Waste & Recycling is using the latest technologies and techniques to significantly reduce the amount of waste going to land-fills. In addition, we have a strong focus on helping support our customers in their recycle and re-use efforts.

Draglam Waste & Recycling Services Include:
